CLIMATE ADAPTATION FOR WATER - PUBLIC FORUM -

Metropolitan Headquarters
700 N. Alameda Street
Los Angeles, CA 90012

Thursday, Sept. 12
10 a.m. - 1 p.m.
Registration Required

As our changing climate puts increasing pressure on water supplies across the western U.S., the Metropolitan Water District of Southern California is developing a new Climate Adaptation Master Plan for Water. Please join us in-person or via Zoom to learn more about this important initiative and to share your thoughts.

Lunch and refreshments provided. We encourage you to take public transportation.

See reverse side for further event and registration details.

Climate Adaptation
Master Plan for Water

2024-2025

CLIMATE ADAPTATION FOR WATER - PUBLIC FORUM -

Keynote Speakers:

Tianna Shaw-Wakeman & Zoe Cunliffe, co-leaders of the Environmental Justice program at Black Women for Wellness and co-authors of *Drinking Water Guide for South Los Angeles* (2024).

Metropolitan's Climate Adaptation Master Plan for Water helps address future uncertainties critical to our region, including:

- How will climate change impact the water supplies Southern California has traditionally relied upon?
- How will evolving state and federal regulations influence how much water Southern California can access in the future?
- How will Southern California's population and collective demand for water change in the coming decades?
- The State has deemed access to safe, clean water a human right. What more can public agencies do to ensure access to safe, clean and affordable water for everyone living in their service areas?

Register for in-person or Zoom attendance via the QR code below:
